

# Household Screening Process Flow

## LEJWELEPUTSWA Community Component

### PHASE 1 : ENTRY

#### OFFICE

1. Counsellor, supervisors receives PPE for their teams.
2. Teams depart for briefing at selected ward.
3. Team members self-screen daily and refer for testing if positive

#### WARD

3. All teams gather around for briefing
4. Ward Counsellor welcomes the team and introduction of CPF/Ward Committee that will accompany teams
5. Formulation of teams comprising of RHI, LLPC & DOH CHWs members
6. The Ward is divided into Sections/Units/Zones to allow for teams to measure coverage

#### INPUTS

7. Electronic devices: 2-3 for capturing during screening = per team
8. PPE = 2 for each team member
9. Thermometer per team - assign one eligible person per team responsible for temperatures on a daily basis.

**Operations, Fleet and IT Officers** report with the teams at the office each morning to ensure availability and functionality of tools, transport and PPE queries.

### PHASE 2 : Implementation

Two teams enter each street, (front opposite houses entered), with the CPF Member in the street, between the HH being screened.

Team-lead receives an alert once a client with +pos symptoms is discovered, and he/she immediately links client with Rapid Response Team for testing/referral.

Clients found to be eligible for HIV or TB testing are immediately linked with the nearby facility for clinical consultation and care.

Announcements and communication maintained continuously during the day using a WhatsApp group.

Team Leaders collate information regarding total number of HH entered, number referred for BTC/re initiation on ART, bottlenecks and additional information necessary for feedback.

Lunch scheduled for teams to regroup & collect information from the teams that are knocking off (DOH CHW). Removal and disposal of PPE before lunch.

### PHASE 3 : EXIT

Teams gather for debriefing.

The Ward counsellor and district representative give closing remarks.

WRHI managers report daily summary, statistics, briefing on technical and operational areas and outline the plan for the following day.

Cleaning and safe keeping of devices.

**Daily report is consolidated.**
